KOS Facility Qualification Supplement

For U.S. and international print, cut, sew, and embroidery facilities

FACILITY DECLARATION

Facility statements

The facility is an independent business. This supplement is used to assess a possible project and is not an authorization, certification, purchase order, or promise of future work. Any approved production must be governed by a separate written order that identifies the pattern revision, size range, fabric, process, facility, quality checks, price, delivery terms, and responsible seller or importer.

☐ I confirm the facility information is accurate and will report material changes before production.

☐ I can maintain job, material, inspection, and revision records for agreed orders.
